

## KNOW YOUR SEPTIC SYSTEM IT'S YOUR MONEY!

## KNOW YOUR SEPTIC SYSTEM IT'S YOUR MONEY!

### The Do's of Septic System Maintenance

1. Do keep records of system installation and maintenance.
2. Do have your septic tank pumped on a routine basis.
3. Do call your local Health Department with any questions.
4. Do ensure that anyone working on your septic system is State certified.
5. Do divert stormwater away from your septic tank and drainfield.
6. Do stagger wash loads and repair leaking fixtures.
7. Do conserve water.

### The Don'ts of Septic System Maintenance

1. Don't park or drive over your septic tank and drainfield.
2. Don't plant anything over the drainfield but grass.
3. Don't use septic tank additives.
4. Don't use a garbage disposal unless your septic system is designed for it.
5. Don't build over the septic tank or drainfield.
6. Don't use your septic system to dispose of inappropriate wastes.
